Changes in standard working processes that may affect employees during their working day due to the current outbreak resulting in potential injuries or confusion

Employees accessing all AP sites or locations for work related purposes may be required to walk rather than obtain a lift from a colleague. Risks associated with an increased requirement to use pedestrian methods are detailed within a pre-existing risk assessment of RA-236.

G:\Health & Safety & Environment\Risk Assessments (PDF)\All AP sites

Changes to Alloga UK transport drivers may include staying within their vehicle at delivery points and limited access to facilities, however following guidance from the HSE, full sanitary facilities must still be available for drivers. www.HSE.co.uk

Employees are now required to ensure that a 2m distance is applied between themselves and colleagues, markings on the floor where possible is present with extended/alternated breaks enforced for all teams

The large office space situated above Amber Park 7 has now been furnished with workstations for employees to occupy if required. All desks are set out 2m apart. No hot desking or sharing desks will be permitted.

Wipes, hand sanitisers and anti bacterial spray is present for all employees to use at the start and end of the working day for all stations.

Government guidelines published 11th May 2020 is currently under review by the Health & Safety department to ensure Alloga UK adhere and comply with all current requirements. A copy of the guidelines can be obtained by following: www.gov.uk/workingsafely.

Employees at present may be requested to use alternative methods such as walking to access other sites or locations for businesses purposes due to the government requirements of social distancing where possible.

Environmental Risks
